OC business featured on national TV show 'Overhaulin'

Huntington Beach, CA... The Huntington Beach based Beach Cities Paintless Dent Removal (PDR) will be featured on an upcoming episode of the nationally televised program "Overhaulin", April 4 on The Learning Channel (TLC).

Founder and president Jeff Magill and his brother Mark, are the creators of a drive thru and mobile vehicle dent removal company, 116861 Beach Blvd., that is fast approaching 15,000 dent removals after 10 years in business.

The dent removal industry rests somewhere between a full-fledge body shop and the neighbor down the street with a plunger.

"The plunger was never part of the magic; it's a myth," said Jeff Magill.

But the industry is growing as evident of the curious who want into the business.

"The trainees we instruct are coming as far away as Nevada and Arizona to learn what I've known all my life. It's an incredible complement to a very fast and maturing industry," said the 37-year-old Magill.
